### ITILITY GROUP AND AIC ACQUIRE A MAJORITY STAKE IN LEADING EARTH OBSERVATION COMPANY eLEAF

Wageningen, 12 May 2022 – Itility Group and AIC together acquired a majority stake in leading Earth Observation company eLEAF headquartered in Wageningen, the Netherlands. Both investors are active in the area of agricultural technology and acquired eLEAF with the intention to accelerate its growth potential.

Founded in 2000, eLEAF has developed the relevant experience to grow into one of the few companies that is able to process satellite data on a global scale. The rationale behind this acquisition is to anticipate to the rapidly growing industry demand for large scale satellite-based data solutions. This will help improve business outcomes and it supports the sustainable development goals for the global water and food security (i.e. SDG6/SDG2). Supported by the Itility Group, eLEAF can further scale its technology and deploy this across the globe to support farmers, companies, and institutions in an attempt to work towards a more climate resilient future. With the support of AIC, eLEAF's technology can be deployed on a wider geographical scale through its channels in Africa and globally.

Boudewijn van Silfhout, CEO at eLEAF: "Super proud and enthusiastic to announce two new investors in eLEAF. The Itility Group and AIC will help us to accelerate our growth and scale our technology. A vote of confidence for the team."

### SHORT PROFILE eLEAF

eLEAF specializes in providing satellite-based data and services to optimise agricultural production, support sustainable water and irrigation management, and assess climate and drought risk. Its core technology delivers high-quality evapotranspiration and biomass production data ranging from continental to field scale. The company works closely together with institutions, national governments, water authorities, insurance companies, and individual producers to work towards a more climate resilient future. With decades of experience, it is one of the few companies able to process satellite data on a global scale. eLEAF was founded in 2000 and is headquartered in Wageningen, The Netherlands.
