ITILITY GROUP ACQUIRES A MAJORITY STAKE IN SOFTWARE DEVELOPER SEAMGEN

San Diego, 14 April 2025 – Itility Group, a leading software and data solution provider in manufacturing, energy, and agritech, is delighted to announce the acquisition of a majority stake in Seamgen, a United States based software developer. This marks a significant milestone for both companies in the field of applications, data solutions, cloud platforms and AI.

With its new shareholder, Seamgen will be able to accelerate growth and anticipate the rapidly growing demand for custom, data-intensive and AI-driven applications—built on secure cloud platforms. Supported by Itility, the company can further scale its application development and provide both maintenance and support.

Marc Alringer, President of Seamgen: “At Seamgen we develop world-class digital applications, addressing complex business challenges with the intersection of modern technology and cutting-edge user experiences. That is why I am thrilled to announce our new partnership with Itility, where we add technology specialists in data/AI, and cloud management services for ongoing support of our applications. Our expanded team will give us everything from user experience design to large scale data lake expertise.”

Peter Schepers, CEO Itility: “We are excited to work shoulder-to-shoulder with Seamgen on the fascinating business cases of their clients. With this partnership, we can apply our AI knowledge, large-scale data lake experience, and cloud expertise to actually help the Seamgen’s customers from design to deployment, and fill the demand for robust, cloud-based and data-driven solutions.”

SHORT PROFILE SEAMGEN
